"Sharing your garden bounty with Neighbors in Need"

What If The Solution To Hunger Was In *Your* Back Yard?

50 million Americans rely on their local food pantry to feed their family, but have no access to fresh food – especially locally grown produce.

40 million Americans have home gardens, but throw away the excess food because they always thought they couldn't donate it.

It Doesn't Have To Be This Way!

AmpleHarvest.org makes YOU be the solution.

We link America's 40 million growers to neighborhood food pantries so that extra food can be shared with those in need. Visit www.AmpleHarvest.org/findpantry to locate a pantry near you and share your garden bounty today!
