

PROBLEM #1
Food
Wasted

America's home and community gardens grow enough excess food to feed **28 million** hungry people.

MISSED OPPORTUNITY

Gardeners are overwhelmed every year with their bounty, and hate seeing the excess go to waste.

Solving Food
Waste

Most gardeners, given the opportunity, are eager to donate that food to help the community yet never knew that they could - or where to take it.

Solving
Hunger

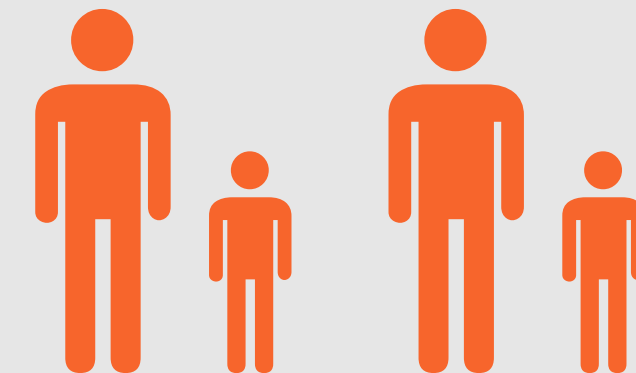

Food pantries nationwide never knew that they could accept locally grown fresh food, and never knew that the gardeners were eager to donate it.

PROBLEM #2
Hunger in
America

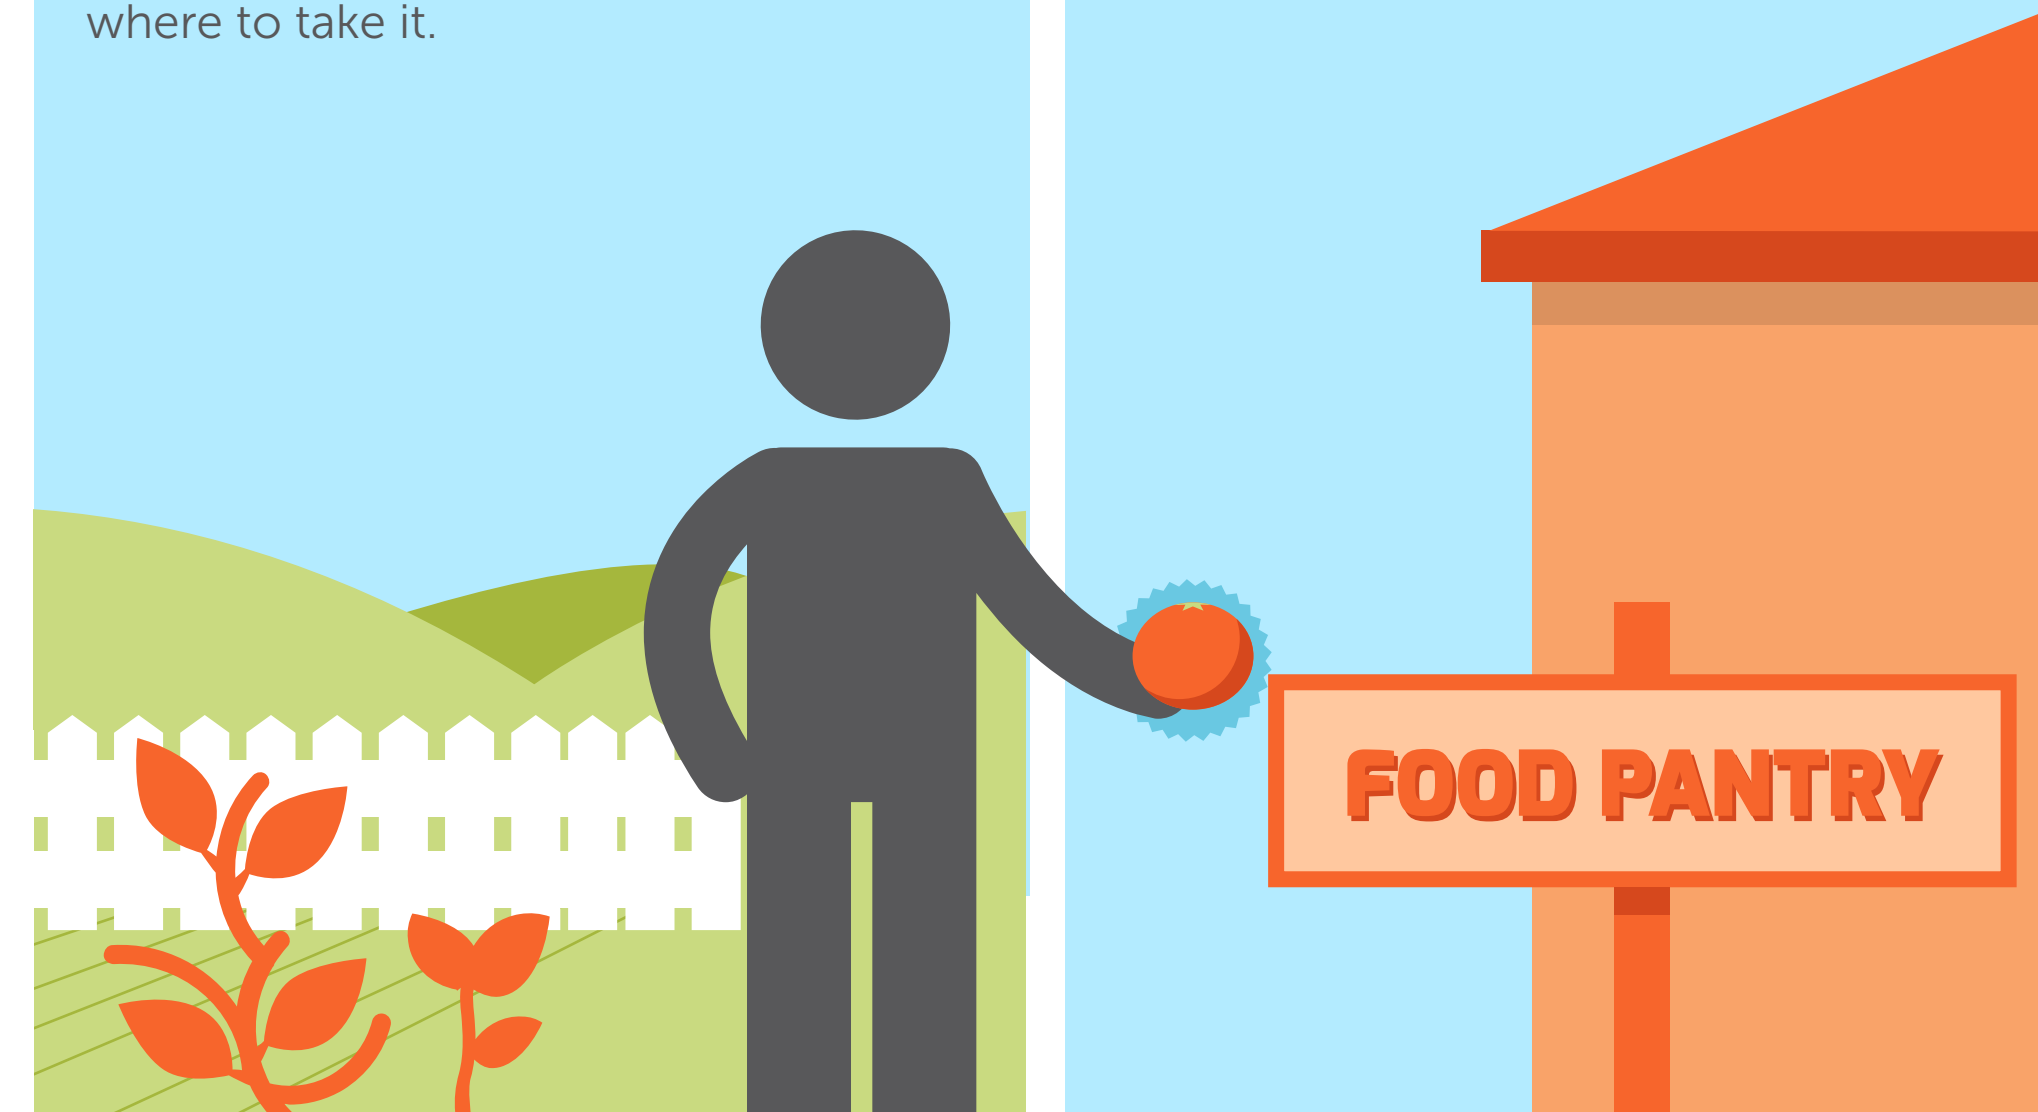

America has **50 million people** (including 1 out of every 4 children under the age of six) to live in a home without enough food.

MISSED OPPORTUNITY

Millions of children go to school and millions of their parents go to work - all undernourished. Neither perform up to par.

AMPLEHARVEST.ORG

THE AWARD WINNING NATIONWIDE SOLUTION

Everything we do and believe in is to solve hunger and malnutrition by eliminating the root cause – the waste of fresh food.

We do this by way of an elegant yet simple solution – combining information and technology to enable billions of pounds of excess food to reach thousands of food pantries that nourish millions of families nationwide.

Our solution is to educate and enable local gardeners to donate that food.

Your financial support creates a permanent, sustainable and local solution. And it's closer to home than you ever thought possible.

[DONATE NOW](#)

Please help more fresh food get to more hungry families.
